Hyunjung Lim (Kyung Hee University, Republic of Korea)

Dr. Hyunjung Lim is a professor in the Department of Medical Nutrition. She is also the Director of the Research Institute of Medical Nutrition, Graduate School of East-West Medical Science at Kyung Hee University in South Korea. She received her BS, MS, and Ph.D. in Clinical Nutrition from Kyung Hee University in South Korea and her postdoctoral training in nutritional epidemiology at the Johns Hopkins Bloomberg School of Public Health (Baltimore, MD, USA) during 2010-2013. Dr. Lim's main research focuses on the relationships between dietary risk factors and the incidence/prevalence of non-communicable diseases such as obesity, hypertension, and diabetes. She also has an interest in nutritional epidemiology and childhood obesity and sarcopenia, especially nutritional assessment and management. Dr. Lim has expertise and experience in evaluating nutritional status, the quality of diet, and patient-customized nutrition management. Furthermore, she is an expert in clinical nutrition who establishes and applies nutritional therapy courses for patients with various diseases. Over the past five years, Dr. Lim has published more than 70 peer-reviewed papers and secured about \$10.0 million in research grants as a PI funded by the National Institutes in South Korea (Korea Centers for Disease Control and Prevention, Ministry of Food and Drug Safety, and Rural Development Administration) and other funding agencies.
